Kasi Gibbs assists students in planting cotton seeds

"Come Grow with Us"

On Thursday March 22, 2018, Sara Sercer and several 4-H students joined PASS parents during the monthly family engagement. Sara shared an informative gardening program with the

parents and allowed them time to ask questions. She discussed growing a garden in our region and the plants that grow well. Included in the discussion were tomatoes, squash, corn, beans and a variety of other vegetables.

After the presentation, parents and their children were given the materials to plant seeds that could be taken home and transplanted into a garden or container. Participants planted a variety of tomatoes, other vegetables, and flowers. The families planted roughly 32 seeds in starter pots and were excited at the prospect of watching them grow and later eating the produce. This was a fun project for parents to share with their children and one they can continue at home.

After the event, door prizes such as gloves, trowels, watering cans, and plants were awarded to further aid in this endeavor.

A huge thanks to Sara and her assistants for helping with this special event.

PASS students learn,

"LOVE is...Respect"

February is National Teen Dating Violence awareness Month and Barb Johns and Jennifer Giddens from the WINGS organization presented a special program to middle school students in the Wilcox

County PASS Program. Their topic was what respect means and why it's so important in a healthy relationship-online and off.

Dating violence is more common than many people think. One in three teens in the U.S. will experience physical, sexual, or emotional abuse by someone they are in a relationship with before they become adults. It is very important to spread this message and stop dating abuse before it starts.

The Safe Date program goals are to change adolescent dating violence norms, change adolescent gender-role norms, improve conflict resolution skills for dating relationships, promote victim and perpetrator beliefs in need for help and awareness of community resources for dating violence, promote help-seeking by victims and perpetrators, and improve peer help-giving skills.

Thanks Barb and Jennifer for sharing this great program with our students.
