To The Wilcox County Voters Of District 3

I have been a resident of the 3rd District all of my life, except for the 9 years I was in college and hotel/restaurant management. I have a six year college specialist degree and have been involved in several small businesses. Currently I have a small herd of cows, own and operate some heavy equipment, as well as a machine shop. I have taught school for 30+ years (mostly math and vocational). I taught automotive and small engine lawn repair for 8 years. My experiences and education give me a wealth of knowledge for running an efficient and effective operation. I would like to be your county commissioner to help keep Wilcox County a great place to live and raise a family.

ATTENTION CITIZENS OF WILCOX COUNTY COMMISSION DISTRICT 5

As Teddy Roosevelt said, “The most practical kind of politics is the politics of decency”. As a citizen of Wilcox County, I must stand on the principles handed down to me. I will not, nor should I, answer allegations asserted solely for political purposes.

I have worked all my life to strive to be a Christian person with good morals demonstrating fairness, decency, honesty and integrity and to help the people of our community. I try to be a practical man.

As a Commissioner answerable to the people, I must stand on my record. Thankfully, due to the hard work of each Commissioner and the various departments of our County, I have solid ground on which to stand. During my tenure, the tax rate has not increased. However, the fund balance of the County has continued to become more solid.

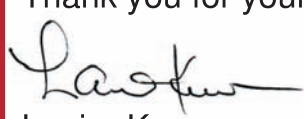

It is so easy for someone to sit on the outside and criticize what is taking place; just as it is easier to tear down rather than build up. It is different when you actually sit in an elected position and are accountable to those you serve. Often, you find the positions and ideas you may have had must be part of a compromise for the betterment of all involved. I have served as County Commissioner for seven years, five months. This is the first time I have heard these alleged issues. **My opponent has not attended a County Commission meeting or visited the County Commission Office during my tenure so I have question where he is getting his information.**

Now, I do not pretend to have all the answers but I diligently look for and weigh all solutions that may keep Wilcox County moving forward. I am available to all of my constituents in District 5 and all Wilcox County citizens. It is only by pulling together that we can continue to keep Wilcox County on the path to a brighter and more prosperous future. Let’s keep building Wilcox up!

As many of you know, I am a farmer and this is our busiest time of year. I have tried to reach out to as many citizens as possible but if I have not seen you personally, please call me with any questions on my personal cell phone, **229-425-1942.**

Again, I am asking for you to cast a vote to re-elect
“Lanier Keene”
for continued progress in Wilcox County.

Thank you for your continued support.

Attention District 5 Voters

As non-residential tax payers that pays thousands of dollars in taxes to the county, we would like to inform you how the county is run.

In 2008, we requested for Mayhaw Road to be closed due to vandalism, cows shot, fences/cross fences cut in order to gain access to anhydrous ammonia that is used in making drugs. We also had 70 feet of pivot extending across the road. Closure of the road was finalized in January 2009 after certified letters were sent to all landowners by county attorney, Toni Sawyer and legal notice run in the Cordele Dispatch.

On October 6, 2015, the regular commissioner's meeting was held. Placed on the agenda was an item that was controversial at the least. A group called one of the commissioner's and requested to be heard to give cause to reopen Mayhaw Road that they alleged had been illegally closed since January 2009. A certain commissioner, who had personal interest in reopening the road, never informed the other landowner's that this issue was on the agenda, so they could defend their rights. In a unanimous vote, the road was reopened even after Chairman Brown stated he remembered there were no opposition to close the road.

If not for a citizen at the meeting, calling us none of the other landowners would have known of the reopening of the road.

We had to contact a lawyer because they said it was a "done deal". No one ever took the time to see if the road had been closed legally or not.

All the documents pertaining to this road closure that the commissioner's office is required to keep, seemingly disappeared according to the county manager. I had to search and locate the documents myself through the Cordele Dispatch and going to the courthouse, taking hours of my time and money. We requested, through our lawyer, to be placed on the agenda for the November 3, 2015 meeting, we were informed by Toni Sawyer that this issue would not be discussed at that meeting. We attended the meeting anyway and were allowed to request the reclosure of Mayhaw Road.

In the December 1, 2015 meeting, Toni Sawyer, county lawyer, said the road was closed legally and what the commissioners had done was invalid but to clear the record they were told to rescind the vote. Motion was made to close Mayhaw Road and passed unanimously.

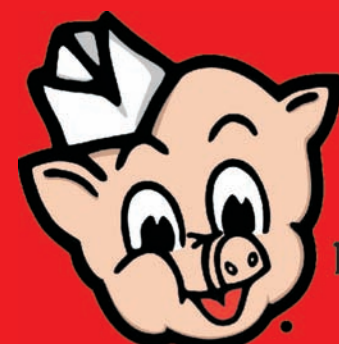

Really? How many times does this happen and no one knows what is going on? We were out our lawyer fees, slandered in the meetings and then told to "just act like it never happened"!

Is this the type of commissioner you want running the county and spending your money?

How many times are deals made to benefit one of the commissioners or one of their family members?
